

We're HIRING!

Summer Intern - Tax

Our firm in Brussels offers its clients services in all areas of business law. Our specialty is our in-depth knowledge of certain key sectors of the economy, including information technology, media, life sciences, banking and finance, distribution, and aerospace. We work for the most innovative, technologically advanced companies. We are proud of our values (People first, Collaboration and ESG) of which diversity and inclusiveness are an integral part.

Fieldfisher is offering a Summer Internship to a student who will have the opportunity to join our ambitious and fast-growing Tax Practice (6 lawyers and 1 assistant) in Brussels. As an internationally oriented Belgian Tax Practice we regularly advise Belgian and international clients (working together with and leveraging other practices of our fast-growing international network) in all areas of taxation and frequently represent clients in connection with requests for advance tax rulings and tax litigations. As such, our Belgian Tax Practice covers both direct and indirect taxation (e.g. corporate income taxation, transfer pricing, VAT, registration duties, excises).

We assist businesses at all stages of their life cycle. In particular, we have developed expertise in complex international tax issues (e.g. beneficial ownership and substance issues; value chain optimization; transfer pricing; VAT-fixed establishment issues; global restructurings; IP-management and optimization), management incentive plans and M&A. Our corporate clients (from listed companies to "scale-ups") are active in various sectors, with a particular focus on those from the technology, life sciences and real estate sectors.

In addition, we assist high-net worth individuals on various tax related issues, including structuring their activities and investments and organizing the transfer of their estate.

Finally, we are also active in the academic and scientific world as almost everyone in our team frequently lectures, gives speeches and publishes contributions on various tax topics.

REQUIREMENTS

The Intern we are looking for:

- is currently completing a LLM at a Belgian university with the intention of following up with or, is currently completing, a specialised master in tax law;
- is passionate about (direct and indirect) taxes in the broadest sense with a specific interest in international tax matters (e.g. cross border transactions, structuring, transfer pricing) or in contentious tax (administrative or judiciary) matters;
- is eager to learn;
- is a team-player;
- has excellent legal and analytical skills;
- is business-oriented and always looking for a pragmatic solution;
- has good language skills, meaning that he/she/they is/are fluent in French or Dutch and has a very strong command of English ; and
- has good communication skills and a good team spirit.
